RE: Approval of Water Monitoring Point, Co-Op Mining Company, Bear Canyon Mine, ACT/015/025-90B, Folder #3, Emery County, Utah

Synopsis

The operator has requested the addition of a new water monitoring point, SBC-9. This memo reviews this request.

Analysis

Plate 7-1A show the addition of point SBC-9 and the deletion of point SBC-7 and SBC-8. Points SBC-7 and SBC-8 will be monitored for flow to determine if they can be monitored again in the future. Currently, SBC-9 is the only point monitored for water quality based on adequate in-mine flow.

Recommendations

The monitoring point be added and this amendment be approved and the Permit Application Package be updated with this information.
